Forecast for Saturday 15 Jul 2023

Weather: Some bright or sunny intervals along with some heavy showers, these, becoming more widespread and heavier through the afternoon and early evening with a risk of thunderstorms. Some ranges may hang on to cloud for most of the day with sunny intervals more likely in sheltered lowland areas. Becoming drier later in the evening.

Chance of cloud-free hill tops above 800m: 70% around the middle of the day, but 30% early and later.

Low cloud and visibility: Extensive low cloud, base 300 to 600m, early and later in the day, but occasional or extensive near or above the summits around the middle of the day, although lower in heavy showers. Visibility moderate to very poor, becoming mostly good for a time around the middle of the day, but much lower in heavy or thundery showers. Windy with strong winds over the summits.
